September 11, 2018

Dear Parents,

Your Son/Daughter is enrolled in the Health Occupations class at the Jo Daviess Carroll CTE Academy. As part of the class, your student is required to have the following immunizations: Hepatitis B series, Flu Shot as well as a TB skin test before clinical rotations begin. These vaccinations are for the protection of your student as well as the protection of the clients.

The Hepatitis B series is required as part of the school vaccinations, so you can check with the school nurse or your physician to find the appropriate dates. The TB skin test can be obtained through your physician or will be available at the CTE Academy during class by the Jo Daviess County Health Department. The fee for this shot is \$30.00 payable to the Jo Daviess County Health Department. If your child has had a TB test in the past three months, please get a copy of results for my records. The Flu Shot should be scheduled through your doctor or other sources and copy of record of immunization brought to me. All immunizations must be completed by November 9, 2018.

If you have any questions, please contact me at the CTE Academy at (815) 858-2203, ext. 116 or by e-mail at kkoester@cteacademy.net. The enclosed form and payment for TB skin test by Health Department must be returned by October 11, 2018.

Thank you,

Karen Koester, RN MSN
Health Occupations Instructor
